DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Winston Hsu on 8/13/2003.

The application has been amended as follows:

In the Specification, page 9, first paragraph, line 15, delete "physically".

In claim 1: line 5, delete "physically".

In claim 10, line 8, delete "physically".

Claims 19-43 are cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

During an interview on August 13, 2003, Applicant pointed out that the amended claim 1 is directed to a single-layered film substrate, and that while the primary reference Gaikema (US 4689936) also comprises a single-layered substrate, whereas the secondary reference Chalis (US 5672406) must require a multilayered film, and at least a two-layer film, of two polymers with fairly widely different temperature

coefficients of expansion, is required to open the aperture as the temperature changes (column 3, lines 48-51). As such, upon reconsideration, the Examiner now agrees that Gaikema and Chalis are not combinable, and that the instantly claimed invention is not obvious over Gaikema, taken individually. Additionally, the Specification and claims 1 and 10 have been amended to delete "physically" as set forth above, since it is both unclear as to the scope of "physically", and also that the term lacks any apparent support, the Examiner's earlier brief comments to the contrary notwithstanding.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
